Summer School News

Summer 2013

We have been having such a wonderful summer at the preschool.

We

have enjoyed all the fantastic themes every week and we are overly excited for every water day. It has truly been a spectacular summer with all the children

enjoying all the activities that the teachers have planned for them. From cooking pizza, analyzing dinosaurs, creating canvas paintings, exploring international art and enjoying face painting the children have had a remarkable summer.

We hope that your summer has been as adventurous as ours has been. We are all very excited for the new school year, but first some much deserved R&R for all of our marvelous staff.

See you on Wednesday, September 4th for Orientation day.
